Dennis,

My mother was given a \$47k check by Amr last Friday from Cadence for his interest in Get2Chip. It has Amr's name on it. Amr's concern is that some, or all of this amount should have been written to AiM, LLC. This check is with me now and has not been cashed. Amr believes this check should have been written to AiM and has asked me to look for paperwork confirming this. I have not done this yet and would like to address Amr's concerns before doing anything with the check. I don't know the disposition of AiM LLC and don't intend to assume it is outside of the estate until that's ironed out.

I've talked about Get2Chip at length with Ms. Mounger and Ms. Muir and don't recall if we discussed it in the deposition. I *believe* the paperwork I had was in the folder I gave you... and I'm positive I gave Ms. Muir a copy of the stock certificate. I've also shown Ms. Mounger and Ms. Muir all checks I've gotten from Get2Chip in the past, both for AiM and Amr, and I've never cashed any AiM check I've received.

Regards,

Ehab
